About this sample: This shows the exact live output of the interactive Song & Set List Statistics section in the September 2026 edition of the e-book, with the filters set as noted above. In the real e-book, every table is fully interactive — you can pick any song, year, or filter combination yourself, sort columns, and click any date to jump straight to that show's full entry. In this static PDF sample, the date links and pagination buttons are for illustration only and are not clickable.

83 rows — grouped by year, sorted by number of times played (high to low) within each year. Counts for some songs include performances with a certainty level of "memory" or "uncertain", and the exact date is not known for certain for some performances. Pick a year from the dropdown and/or type a song name to filter.
